Public Presentation

September 27, 2011

Social & Economic Impacts of Non-Renewable Resource Extraction in Alberta

ALTERNATIVES NORTH presents a noon-hour talk entitled Social & Economic Impacts of Non-Renewable Resource Extraction in Alberta.

Diana Gibson, former Research Director of the Parkland Institute, will present an overview of social and economic impacts of non-renewable resource extraction. Gender and class analysis, relative job creation effectiveness, trends in income gaps and cost of living, impacts on other economic sectors and impacts of project closures will be among the subjects addressed.

Suggestions to both mitigate negative consequences and promote long-term local benefits through effective public policy will be offered.

When: October 11 at noon
Where: Public Library Meeting Room
