

# 100% Renewable Energy in the NWT

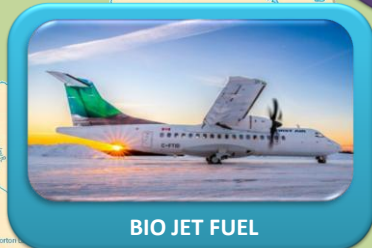

**Wood and Wood Pellets (Heat & Power)**  
58%

**WOOD PELLETS**

**FIRE WOOD**

**BIO JET FUEL**

Bio Jet Fuel is made from vegetable oil.

**Bio Jet Fuel (Aircraft)**  
11%

**Biogas (Transport & Mining Equip.)**  
19%

**BIOGAS VEHICLES**

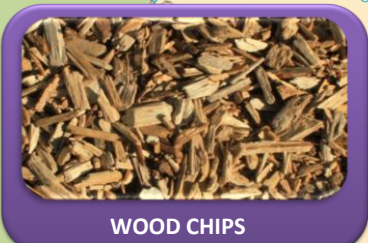

Biogas is natural gas made from renewable sources.

**BIOGAS EQUIPMENT**

**ELECTRIC VEHICLES**

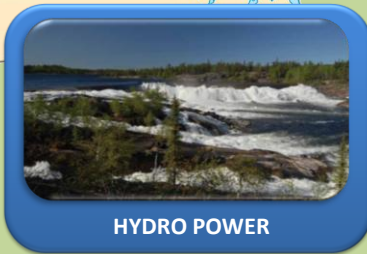

**WOOD CHIPS**

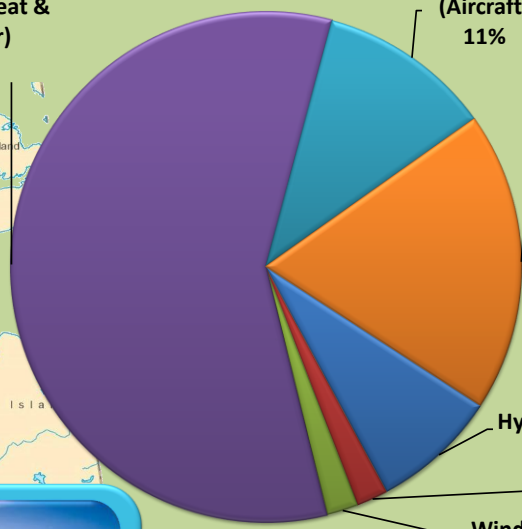

**WIND POWER**

**SOLAR POWER**

**HYDRO POWER**

**This 100% Renewable Energy future:**

- Uses more local energy sources,
- Creates more Northern jobs,
- Could be built by 2050, using practical technologies that exist today,
- Includes sustainable forest management,
- Uses modern wood-burning technology to keep our air clean.

**What do you think our 100% Renewable Energy future should look like?**
