

*Alternatives North*

8 September, 2021

All Candidates  
Federal Election, September, 2021

Alternatives North is a social, environmental and economic justice coalition operating in the Northwest Territories. Within our ranks are representatives of churches, labour unions, environmental organizations, women and family advocates and anti-poverty groups. Individual citizens are important participants in our work. We are a non-profit, non-partisan society.

Congratulations, and thank you for putting your name forward to stand as a candidate in the current election. It is through committed involvement by people of vision and leadership that democracy works, and that the public can make reasonable choices for their leaders.

Alternatives North is posing the attached 6 questions to all candidates. We ask that you provide your responses of up to a quarter page in length each **by close of day on 13 September**, after which we will post them to our website and promote them for review by the public. The questions were provided by Seth Klein of the Climate Emergency Unit of the David Suzuki Institute, and align with the interests and concerns of our organization.

Again, thank you for running, and thank you for participating in this effort to provide information and transparency to the voting public.

Sincerely,

Bob Bromley,  
for Alternatives North
